PLANS & BILLING / Effective October 1, 2026 / SECTION 01

Plans at a glance

The following prices and quotas are fictional demo policies, denominated in USD, and apply per workspace.

Subscription comparison

Plan	Monthly price	Seats	Active + archived projects
Free	$0	3	2
Starter	$12 / workspace	10	20
Pro	$39 / workspace	50	Unlimited
Business	$99 / workspace	Unlimited	Unlimited

Prices are flat per workspace, not per seat. Annual subscriptions cost 10 times the monthly list price when paid upfront (roughly two months free). Taxes, if required, are added at checkout. There is no Enterprise plan in this demo.

Included features

- Free: task boards, comments, 1 GB attachment storage, no project exports, no API access.
- Starter: task boards, timeline, 20 GB storage, CSV UI export, API access, basic dashboards.
- Pro: everything in Starter plus advanced analytics, 100 GB storage, CSV and JSON UI exports, and API exports.
- Business: everything in Pro plus 1 TB storage, SSO, audit-log access, XLSX UI export, and priority support.

For permission rules that apply independently of plan, see Product Guide, page 2.

PLANS & BILLING / Effective October 1, 2026 / SECTION 02

Export formats and limitations

This page is the authoritative plan entitlement matrix for project exports as of October 1, 2026.

Current export entitlement matrix

Plan	Web UI export	API export
Free	Not available	Not available
Starter	CSV	Not available
Pro	CSV, JSON	CSV, JSON
Business	CSV, JSON, XLSX	CSV, JSON

Starter DOES support CSV export through the web interface. Starter DOES NOT support programmatic API exports. XLSX is available only in the Business web interface, not through the API.

Role and access restrictions

An Owner, Admin, or Member can export only data from projects they can access. Viewers may never export, even on Pro or Business. A private project remains inaccessible to users who are not project members unless they are the workspace Owner.

Limits and retention

- UI exports: Starter 5 exports per workspace per day; Pro 50 per day; Business 200 per day.
- UI files expire after 24 hours in the download center. API export jobs expire after 24 hours as well.
- CSV and JSON include tasks and the standard task fields; XLSX includes separate Tasks and Summary worksheets.

Historical context

CSV export first shipped March 12, 2025 for Starter and higher. That launch date is documented in Release Notes, page 2. Newer plan policies on this page take precedence over old release announcements.

PLANS & BILLING / Effective October 1, 2026 / SECTION 03

Billing, renewals, and changes

Subscriptions are assigned to workspaces and managed by the Owner in Settings > Billing.

Payment and invoices

TaskFlow accepts Visa, Mastercard, and American Express credit or debit cards for self-service plans. Charges occur at the start of a monthly or annual billing period. Receipts and invoices are downloadable in Settings > Billing > Invoices.

Upgrades and downgrades

An upgrade from Starter to Pro or Business takes effect immediately. The customer receives a prorated credit for the unused portion of the old plan and pays the prorated difference for the remainder of the current billing period.

Downgrades take effect at the next renewal date. If the workspace exceeds the lower plan limits, excess projects are locked to read-only until the workspace is brought within quota; data is not automatically deleted.

Cancellation

An Owner can cancel at any time. Cancellation disables automatic renewal but paid features continue through the end of the paid term. At expiry the workspace moves to Free, subject to Free limits. Data is retained for 30 days after expiry before excess archived content is eligible for deletion.

For card-decline troubleshooting, see Troubleshooting, page 3.

PLANS & BILLING / Effective October 1, 2026 / SECTION 04

Refunds and billing FAQ

Refund eligibility depends on the purchase type and time elapsed; cancelling is not itself a refund request.

Refund policy

First-time annual subscriptions may be refunded in full if requested within 14 calendar days of the initial charge. Renewals of annual plans are non-refundable. Monthly payments, including first-month purchases, are non-refundable, except where law requires otherwise.

A customer must contact billing@taskflow.example with the workspace ID and invoice number. Approved refunds are returned to the original payment method in 5-10 business days. This is a fictional mailbox for demo purposes.

Common questions

Does Starter include a free CSV export trial? No. Free cannot export; Starter CSV access begins only after the paid plan becomes active.

What happens if payment fails? TaskFlow retries payment on days 1, 3, and 7 after the initial failure. If all retries fail, the workspace enters read-only billing grace mode on day 8. Billing issues can be fixed by an Owner.

Can an Admin update the payment card? No. Only an Owner has billing permissions (Product Guide, page 2).
